

Tests

Tested conforming to the norms: CAN/ULC S-102

Specification

Material: Aluminum surface / Two layers of polymer / One layer of rubberized asphalt

Admissible pressure: 75" static pressure water

Installation temperature: 40°F to 110°F / 4°C to 43°C

Drying time: None - but we recommend a wait of 15 minutes before service

Impermeability: 100% with water and air

Flexibility: 380% - Does not shrink / 100% flexibility / Withstands 100,000 cycles at -10°F (-23°C)

Operating temperature: -25°F to 150°F / -32°C to 66°C

Method and duration of storage: 1 year in its packaging, in a dry location

Covering: 3" x 33.5' per roll

Colour: Aluminum/Silver

Application: The surface must be clean, dry and free of oils

Jointing: 2" longitudinal

Resistance to UV rays: 100%

Commercial guarantee: Standard

Guarantee

Trans Continental Equipment products guarantees that all flexible ducts in the SimpleSeal® series will be free from defects in materials and workmanship for a period of ten (10) years from date of purchase only. Conditional on our instructions for installation, use, operation and cleaning. Materials and technical specifications may be changed without notice.
